**Aleš Tamchyna**

Principal AI Researcher, Phrase

**Veronika Krejčířová**

Head of research, seznam.cz

**Jirka Hana**

Owner & CEO, Geneea

**Petr Schwartz**

Co-founder & former CEO, Phonexia

# Czechia's public sector and Speech and Language Technologies

## Topic 1

- Co v Česku NEJVÍCE chybí v oblasti veřejné podpory pro jazykové a řečové technologie? Peníze, speciální oborové programy podpory, podpora v legislativě, podpora mezinárodního zapojení, ...?
- *What is missing the MOST in the are of public support for Speech and Language Technology in Czechia? Money, programmes with focus on specific domains and fields, legislative support, support for international collaboration, ...?*

## Topic 2

- Co považujete za NEJVĚTŠÍ problém ve využití umělé inteligence ve veřejné oblasti v Česku, tj. například výuka na všech stupních, státní správa, bezpečnost? Brání tomu cena, legislativa, regulace (AI Act apod.), nedostatek vhodných dat pro tvorbu aplikací, ...?
- *What is, in your opinion, the LARGEST problém in the introduction of AI (and SLT) in the Czech public sector, e.g. in education (all levels), in public administration, in defense and public security? Is the reason the price, regulations, lack of (Czech) data, lack of applications?*

Common European Language Data Space

**Thank you!**

A Common European Language Data Space – funded under contract LC-01936389 with the European Union.
