Stockholm	

Our services and solutions

Translations	Subtitling	Transcription	Machine translation	Localization
Speech-to-text	Term management	Clear language	Quality checkers	Content creation

Lingsoft as a Data Consumer

Inclusive European AI Services and solutions

LDS is an opportunity: fair access to data & SME-friendly integration

Call to Action: LDS must be more than a technical solution—European organizations must share data under fair conditions to ensure inclusive AI development.

Need for High-Quality Data: Essential for instruction tuning & fine-tuning LLMs in European languages:
Instructional & domain-specific corpora
Conversational datasets & transcriptions
Parallel corpora & annotated language resources

Common European Language Data Space

Thank you!
